

TECHNICAL DATA SHEET

MALCO® ODOR ELIMINATING FOGGERS (1241)

DESCRIPTION

Malco® Odor Eliminating Foggers are formulated to not mask, but neutralize odors. The fogging mist is deep reaching and effective on odors caused from mustiness, pet urine, decay and tobacco smoke. The foggers contain Ordenone™, an odor neutralizing chemical that eliminates smoke and other strong odors at their source. Deodorizes up to 6,000 cubic feet. Can be used for total release fogging or spot spraying.

DIRECTIONS

Eliminate all ignition sources. A single can may be used to treat up to 10 vehicles with “mild” odor problems using a 10-15 second spray sweep or for major odor use the total odor “eliminator” fogger.

For use as a “total release fogger”, close doors and windows. Spread a newspaper, rag or towel on the floor in an open area with no overhead obstruction (preferably back seat floor). Remove the cap, snap the actuator in place to activate the fogger and immediately place it on the protected floor area. Get out and close the door immediately. For best results, leave vehicle undisturbed for 1-2 hours, then open windows for 30 minutes for proper ventilation prior to entering vehicle.

FEATURES AND BENEFITS

Contains Ordenone™	Eliminates odors at their source
Total release or spot spraying	Handles full range of odor eliminating needs

Scents Available

- Xtrax™ (Part number: 124123)
- Cherry (Part number: 124131)
- Vanilla (Part number: 124132)
