

MALCO[®] ENZYME CLEANER (1029)

DESCRIPTION

Enzyme Cleaner is a bioenzymatic cleaner designed to remove stains caused by organic matter such as grass, blood, vomit, urine and feces from most fabric surfaces. This innovative formula utilizes promicrobial cleaning agents to remove imbedded soils and eliminate odors at their source.

DIRECTIONS

Before cleaning, remove excess liquid and vacuum surfaces to remove dust, dirt or debris. Always test colorfastness before cleaning. Try Enzyme Cleaner in an inconspicuous area first and look for changes in color, appearance and texture. If there is any change discontinue use. Saturate the stain and let dwell for 2 - 3 minutes. Blot with a clean, absorbent cloth. Repeat as necessary. Stubborn stains may require gentle scrubbing with a soft bristled brush.

FEATURES AND BENEFITS

Removes stains caused by organic matter such as grass, blood, vomit and urine	Cleans and eliminates odors at their source
VOC compliant	Body shop safe

PACKAGE SIZES

- 1 gallon (Part number: 102901)
