

MALCO[®] NANO CARE[®] BANANA CRÈME WAX (1977)

DESCRIPTION

Nano Care[®] Banana Crème Wax is a fast and easy way to provide a deep gloss along with long-lasting environmental and UV protection to automotive, marine and industrial finishes. This unique formula combines nano-sized polishing agents and waxes, amino functional silicones and dual functional UV absorbers into one formula for superior protection and ease of use.

DIRECTIONS

Before applying, wash vehicle thoroughly with a quality Malco car wash to remove heavy accumulations of dirt and grime. Make sure surface is cool and dry prior to application. DO NOT APPLY IN THE SUN. SHAKE WELL before using. Apply Nano Care Banana Crème Wax to the surface using a soft cloth or wax applicator pad and spread wax to a thin, even film. Apply to one section at time or to the entire surface to be treated. Allow wax to dry to a light haze and polish off either by hand using a microfiber cloth or with a random orbital polisher.

FEATURES AND BENEFITS

Easy-on / easy-off application	Produces a deep, lustrous gloss
Uses nano-sized polishing agents and waxes for enhanced surface penetration	Superior durability and UV protection
Great banana scent	VOC compliant and water based

PACKAGE SIZES

- 32 fl. oz (Part number: 197732)
- 1 gallon (Part number: 197701)
