

## MALCO<sup>®</sup> EPIC<sup>®</sup> CERAMIC FINAL PREP WIPE (1097)

### DESCRIPTION

EPIC<sup>®</sup> Ceramic Final Prep Wipe is the critical last step in ceramic preparation. Designed for compatibility with the rest of the EPIC<sup>®</sup> Ceramic System, this spray cleans and preps the surface to ensure successful coating adhesion and longer lasting protection.

### DIRECTIONS

After EPIC<sup>®</sup> Prep Wash and EPIC<sup>®</sup> Paint Correction System have been used, spray EPIC<sup>®</sup> Ceramic Final Prep Wipe onto the surface to be coated and wipe entire surface thoroughly with a clean, ultra-soft edgeless microfiber towel. Make sure surface is dust-free for proper application of EPIC<sup>®</sup> PRO + Ceramic Coating with Graphene (109375) or EPIC<sup>®</sup> PRO + Ceramic Coating (109330).

### FEATURES AND BENEFITS

Removes any residual residue, waxes, and surface contaminants to ensure proper adhesion of preferred surface protection product	Helps ensure a successful installation of ceramic coating
Applies easily with spray-on formula	Saves time on work and wastes less product
